BESTSELLER
FACTORY LIST

Last updated: 01.12.2019

Transparency matters: BESTSELLER is to address risks, promote positive change and build fruitful trade-offs with our stakeholders. As we work to increase transparency across our supply chain, we have made our suppliers' names and addresses public.

The factory list includes the names, address, product type and number of workers of all co-located tier 1 manufacturing factories and make-rooms of apparel, footwear and accessories.

The list will be updated twice a year. As changes occur to our supply chain with new partners, new factories onboarded, or factories being phased out, such alterations will be collected and published in the next supplier factory list update.
